EDUCATION

- **Dayanand Sagar College of Engineering**   Bengaluru, India
  Bachelor of Engineering - Information Science; GPA: 8.35   *Aug 2019 - Aug 2023*
  Courses: *Operating Systems, Data Structures, Analysis Of Algorithms, Networking, Database Management System*

SKILLS SUMMARY

- **Languages**:   Java, JavaScript, Typescript Python, SQL, Graphql, Solidity, HTML/CSS
- **Frameworks**:   React.js, Next.js, NodeJS, Smartpy, Prisma, Mongoose, Express
- **Libraries**:   Tailwind CSS, Chakra UI, Shadcn, accentricity UI
- **Tools**:   GIT, PostgreSQL, MySQL, Postman, Apollo Explorer, Vercel, Hugging Face, AWS, Resend Email

EXPERIENCE

- **Jr. Full Stack Developer**   Remote
  AlphaBi Solutions Pvt. Ltd   *Sep. 2023 – Present*
  - **Inventory System Development**: Boosting inventory efficiency by 20%
  - **Role-Based Access**: Implemented role-based access, ensuring data management practices
  - **Seamless Data Transfer**: Led data transfer between databases, resulting in a 15% reduction in stale data

- **Software Engineering Intern**   Remote
  AlphaBi Solutions)   *March 2023 – Aug 2023*
  - **Contribution in Employee Portal**:   increasing the managemental efficiency by 25%
  - **Empowering the Central App** : Delegate responsibilities to new franchisees and track operations. .
  - **Enhanced API Queries** : Reducing loading time by at least 10%.

PROJECTS

- **The Crown Society**: A project built for a freelance client. The site is used by 25+ active users daily and 70+ registered users. Implemented api queries which enhance the investments tracking efficiency for client by atleast 15%

- **Summarize GPT (under development)**: Millions of new blog posts are written each day. So how do you keep up with all of it? Answer is, using AI Text Summarization.My aim is to summarize blogs for end user, when they paste the URL of the blog

- **Gada Electronics**: It is an online electronics shop, which gives seamless stock inventory updates. The system's automated inventory management ensures real-time updates. Used React, Typescript elevating user interface responsiveness.

- **AI NFT Minting Dapp**: This AI NFT minting platform allows users to generate images through prompts to AI and mint them as NFTs.Enhanced Image storage efficiency by implementing IPFS Integration,The platform uses SmartPy for the smart contract development and React.js for the user interface.

TECHNICAL BLOGS

- **Building Multilingual apps in Next 14 using next-intl**: In this blog, we discuss about how we can build application which support multiple languages using a library called next-intl
- **Implementing authentication in Next.js application using Clerk**: In this blog, we discuss about authentication your Next.js application using clerk Library
- **Behind the scenes: Understanding javascript code execution**: Javascript does not traditional execution-style as other language, we decode the same in this blog

ACHIEVEMENTS

- Awarded Employee of the Month By AlphaBi Company - Jan, 2024
- Solved 200+ problems on Leetcode platform
- Completed 20+ projects on Front end mentor platform

CERTIFICATES

- Graph Developer- Associate - Apollo Graphql
- Prompt Engineering using ChatGPT - Geekster
